# Assess your data capability using DCAM®

---

Trusted by leading organisations and global regulators, DCAM® is the world's most highly adopted data maturity assessment framework.

The DCAM® assessment will:

- Assess your data and analytics capabilities against global benchmarks
- Identify strengths and gaps in data management practices
- Align stakeholders with differing perspectives
- Justify funding to invest in data management improvements
- Bolster your organisation's reputation in your industry

# Start your data journey with confidence with a data capability maturity assessment using DCAM®.
